This profile is intended to initiate *MARC Record Enrichment Service* for MARCIVE cataloging service customers (*MarciveWeb SELECT, Cataloging Input System* or other ordering methods). We must already have an active cataloging account for you before we can initiate this service.

If you would like to receive a sample file of Fiction/Biography enriched MARC records using system defaults, please contact Customer Service.

If you would like to receive three sample records to identify the differences between Basic 505, Enhanced 505, and Local 970 Field formats, please contact Customer Service.

I understand that by signing up for this service, our library agrees to pay for all records which are enriched according to this profile. MARCIVE does not charge for examining records nor is there a minimum charge if the enrichment is done as part of the cataloging order. (There is a minimum charge if the library sends records back to MARCIVE for enrichment later.)

FICTION AND BIOGRAPHY FIELD DEFINITIONS

Only answer these questions if you have elected to receive Fiction/Biography data.

Check the first box to receive all fields OR check just the fields you want.

Be sure to fill in the "DELIVER IN THIS LIBRARY DEFINED FIELD" column.

Please note: If you do not indicate a field in the "DELIVER IN THIS LIBRARY DEFINED FIELD" column, we will use the default field and you would need to modify your system to accept that field. If we need to reoutput your database with different fields after the project is done, there will be a fee. Obviously, we prefer that you define the fields up front!
