Output records to OCLC

Loading MARCIVE Enhanced GPO Database records into a utility is prohibited by our license agreement. However, the Library may obtain holdings files suitable for loading into OCLC. Note that OCLC does not require you to load your holdings of GPO records.

If you need holdings records output to OCLC, this is an extra cost option. In order for us to provide records to OCLC to set holdings for you, please access Worldshare Collection Manager at https://help.oclc.org/Metadata_Services/WorldShare_Collection_Manager/Data_sync_collections/Third-party_provider_and_consortial_partner%2F%2Fhead_guidelines_for_data_sync

and create a data sync collection. This will let OCLC know that we will be providing monthly sets of records on your behalf. Once the collection information is processed, OCLC will provide you with a 7-digit data sync collection ID.

We will need to provide this ID number and your OCLC institution symbol to OCLC with the records we

send each month, so we cannot proceed with this option without this information. If you need assistance in completing the data sync collection, please contact OCLC Support at OCLCcustomerSupport@oclc.org.

- Do not send records to OCLC
- Output records to OCLC. (Additional subscription charge of \$441/year). Does not include any costs incurred by OCLC to set holdings.
